

CHRISTMAS – AFTER THE CELEBRATION

FROM ONE CRISIS TO ANOTHER

When things get **noisy**, we crave the **quiet**; when things get **quiet**, we crave the **noise**.

Mary and Joseph became experts in survival

WHERE DID EVERYBODY GO?

Living when the angels have gone

It is **required** that we be **faithful**.

The daily grind reminds us we are **wasting away**. The godly heart reminds us we are **being renewed**.

Routine faithfulness in **problems**, **prayer**, and **good works** leads to success in life.

Something to think about

What is your take-away from today's study in 10 words or less. How would you describe what you got out of today's message to a friend? Why don't you choose someone to share it with before you leave today?

What is the daily grind that tends to bring you down? That makes you feel like you're wasting away? (2 Cor 4:16)

Read Ephesians 5:15. How does that verse relate to your personal life in terms of routine faithfulness? What are one or two opportunities in everyday life you need to make more of?
